EXPERIENCE

Cohere, Nairobi, Kenya — *Web developer*

March 2022 - PRESENT

Building, maintaining and managing [Reframe](#) – a platform that showcases the potential of refugee-led organisations and connects them to international donors, partners, opportunities and resources.

Zydii, Nairobi, Kenya — *Software Engineer*

July 2021 - Jan 2022

Evaluating and recommending optimal technologies to the [Zydii](#) team, balancing cost-effectiveness and technological efficiency

Contributing to design sessions for new solutions, actively participating in planning and design phases.

Developing code according to design specifications, collaborating with team members to meet project deliverables.

Conducting comprehensive testing of new features and contributing to the optimisation of existing systems prior to deployment.

Providing ongoing support and maintenance for various platforms, ensuring the stability and functionality of systems.

SlashdotLabs, Nairobi, Kenya — *Intern*

January 2020 - March 2020

Managed and enhanced the company's WordPress website, implemented new features with Laravel and PHP, oversaw client websites, conducted requirement-gathering interviews, and actively participated in software documentation, version control using Github, and project planning through tools like Trello.

Database management

Version Control

Testing and DevOps

COMPUTER SKILLS:

Comfortable with **PHP**,
Python and **JavaScript**

Some experience with **Java**,
C# and **Lua**

Knowledge in **MySQL** and
PostgreSQL

PROJECTS

[Daro](#) — Leveraging Laravel PHP, this web app empowers teachers to share educational content, addressing challenges in Kenyan schools through a free distribution platform.

[Reframe](#) — platform that supports refugee led organisations across the world. It showcases their work and connects them to the partnerships and funding they need to transform their communities.

[SpaceDash2D](#) — This Unity game engine project is a 2D game where players control a ball using the space button, navigating through obstacles.

EDUCATION

Bachelor of Business Information Technology, Strathmore University
